Welcome to NEPCO's Digital Media Reference Catalog

NEPCO has been serving the sign and graphics industry since 1928. Our commitment to customer service has earned us more than a thousand returning customers in the Northeast and beyond.

It is in this spirit that we announce our entry into the Marine Canvas Awning Supplies business. We will serve our new industry and customers with the same excellent service that has allowed our company to grow over the years.

Our truck delivery and low minimums are two things that distinguish NEPCO from our competition. Low delivery minimums matched with our everyday low prices and in-stock availability is our recipe for success.

You should also note that we stock more than 10,000 different SKUs in our warehouse... so if there's something you need... we probably have it. Just give us a call!

Consider trying NEPCO for your next supply order. You won't be disappointed.

125 Amaral Street
East Providence, RI 02915

Ordering/Shipping
When placing an order, please be certain to give your sales representative all pertinent information i.e. color, size, quantity and all item numbers (if known). Following this procedure will ensure accurate processing of your order. We encourage the use of fax or email.

Our delivery vehicles are standing by to provide accurate, timely delivery with any order received before 5:00PM THE DAY PRIOR TO YOUR SCHEDULED DELIVERY.

Please note that the minimum for delivery will vary based on your location. Call your sales rep for your minimum order. Unsuccessful deliveries may be subject to a re-delivery charge. UPS delivery (next day within Zone 2) will go out the day that the order is placed, as long as it is received prior to 2:00PM.

Returns and Defective Product
Please contact our returns department (Dave at x125) and a return authorization number will be assigned. All return claims must be made within 30 days of the invoice date. Defective items do not apply. Any unused items must be returned in its original packaging. We reserve the right to charge a fifteen (15%) percent restocking and handling fee on all returnable merchandise.

At no time, will NEPCO accept the return of lamps that are out of their case, even if they were purchased out of their case. NEPCO reserves the right to refuse the return of any item. (Our driver will test all bulbs for you on delivery)

NET Terms
Open accounts are available to qualified companies on credit approval. Open accounts carry net 30 terms with interest charges of one and one half (1.5%) percent per month levied against all delinquent accounts.

To open an account, please contact your sales representative. They will ensure that you are emailed a credit application package from our credit department. Please allow up to 30 days for approval notification. Until such time, all accounts will be on a pre-paid or COD (credit card or company check) basis.

Return of Checks Due to Insufficient Funds
Processing bounced checks is costly, so we will automatically add a $30.00 charge to your account for any and all checks that do not clear the bank.

Please call us if you have any questions!

DPF 6500 *2 mil • 7 Year • Premium Translucent Cast Film*

ARLON

Repositionable ✓ Air Release ✓ Eco-Solvent ✓ Solvent ✓ Latex ✓ UV ✓

Clear Solvent Adhesive

DPF 6500 is a gloss white, cast, translucent film with a permanent pressure-sensitive adhesive. Designed for backlit graphics, DPF 6500 is made of a premium cast facestock with a special lay-flat liner. The film provides superior print resolution and image quality.

Recommended Applications:
• Windows
• Second Surface Signs

DPF 4600LX *3.2 mil • 5 Year • Premium Gloss Print Media*

ARLON

Full/Partial Wrap ✓ Repositionable ✓ Air-Release ✓ Removable ✓ Eco-Solvent ✓ Solvent ✓ Latex ✓ UV ✓

Clear Solvent Adhesive

DPF 4600LX is a white gloss high performance film with a tinted, clean removing, repositionable adhesive system. The repositionable light gray adhesive allows for easy installation while ensuring enough opacity for covering up existing graphics or dark substrates. The new LX (Low Profile) X-Scape Technology provides installers the benefit of a bubble-free installation combined with a smooth printed surface that doesn't show the pattern through the print. DPF 4600LX works great for vehicle graphics and wraps.

Recommended Applications:
• Vehicle Wraps and Decals
• Window Graphics
• Real Estate Signage
• POP Displays
• Tradeshow Graphics
• Other Standard Signage

3850-54	54" X 50YD

Did You Know?

The difference between SOLVENT BASED-ADHESIVES and WATER BASED ADHESIVES?

Solvent- Based Adhesives

Solvent-based products are designed for more demanding and longer term applications. The components of this adhesive are combined using solvents, thus allowing a structurally stronger adhesive that is more resistant to chemicals, cleaning agents and wider temperature ranges.

Another important attribute is the ability to wet apply graphics without worry of the adhesive losing bond to the substrate.

Water- Based Adhesives

Products with a water-based adhesive, typically are a low-cost solution for either indoor or short-term outdoor graphic applications. This type of adhesive is found in a wide range of versatile projects like decorative wall graphics, indoor wall murals and way finding signage.

Avoid wet applications when applying water-based adhesive products as this will interfere with the bonding process to the substrate.

Guaranteed to offer the lowest price to our loyal customers

R.Tape Vinyl efx *1 mil • 3 Year • Decorative Printable Metallized Vinyl*

R.tape Vinyl efx is metallized special effects films have always been popular for decorating racecars, billboards, and short-term promotional signage. The distinctive look of these eye-catching films adds value to their designs, so their signs will command higher selling prices and profits! Vinyl Efx colors are through-and-through the vinyl - NOT laminated or top coated. Unlike cold-embossed polyesters, our fade-resistant films are hot-embossed, which produces deeper, better defined paterns. The Vinyl Efx Outdoor Durable Series, which provides up to three years of outdoor life, is comprised of a variety of cost-effective simulated metal, light-diffracting and 3-D patterns, designed for long-term outdoor signage. For demanding applications such as truck and boat graphics, the Vinyl Efx Durable Series films provide a superior alternative to the expensive simulated gold-leaf films. Available in Gold and Silver.

ORACAL • **8500 Series** *3 mil • 7 Year • High Performance PVC Vinyl Film*

8500 Series meets the demands of internally illuminated signage with a 7-year durability and unbeatable color consistency from roll-to-roll. The silk-matte finish is perfect for reducing undesired reflection and the workability will change the way you think about translucent film. Series 8500 Film has been designed for producing highquality illuminated signs on rigid and thermoformed surfaces, and has been approved for prethermoforming.

Recommended Application:
• Interior/Exterior Graphics • Glass • Backlit Signs

STABLE FOR HIGH-WINDS, HEAVY TRAFFIC AREAS, SCHOOLS, MALLS, ECONOMICAL AND PEDESTRIAN FRIENDLY!

Our rubber and steel sign bases are ideal for parking lots, crosswalks, guard booths, schools, malls, industrial and construction sites, or anywhere portable or where temporary signs are needed.

Our 60lb. rubber base unit is stable enough to withstand high winds and bad weather, as well as heavy traffic areas. For excessive high wind areas there is also an optional 30 pound extender to add to our octagon bases creating additional stability. (Special Order Only.) Our 30lb. rubber base & our 22lb. steel bases are ideal for indoor or light temporary use.

Flex Letter Set - 8" Height - .030" Thickness (Bold)

Flex Changeable Copy Letters and Numbers Set is a low-cost economical letter set. With its clear PVC backing, these letters are not designed to be laid flat against surfaces. They must be bowed to allow wind to pass for expansion and contraction. Flex Changeable Copy Letters and Numbers must be used in a well vented application. They cannot be used in a non-vented vandal-proof application due to the fact that they heat and warp. **Used with Texas Track only!**

DON'T FORGET!

Texas Track (For Flex Letters - 7'6" - .040" Thickness)

7/8"

This Letter Track holds Flex Changeable Copy Letters and Numbers Set onto any Sign. The Texas Track is made of Polycarbonate plastic with a length of 7'6" long (or 90 inches) and can be cut to the sign size you need. To attach you can drill a hole at the center of the track and use screws or rivets or screws into your letter board. You can also use double-sided VHB tape to secure it as well as glue.

Rigid .080
Pronto Rigid Letter Set .080" Thickness

Pronto Changeable Copy Letters and Numbers Set is a cut above the traditional saw-cut changeable copy. Its patented acrylic panel design prevents scratches and its UV Inks have no harmful VOCs. It also has molded feet to keep panels from sticking within the track. **Used with Pronto Track only!**
